

## GREATER CAMBRIDGE AND GREATER PETERBOROUGH

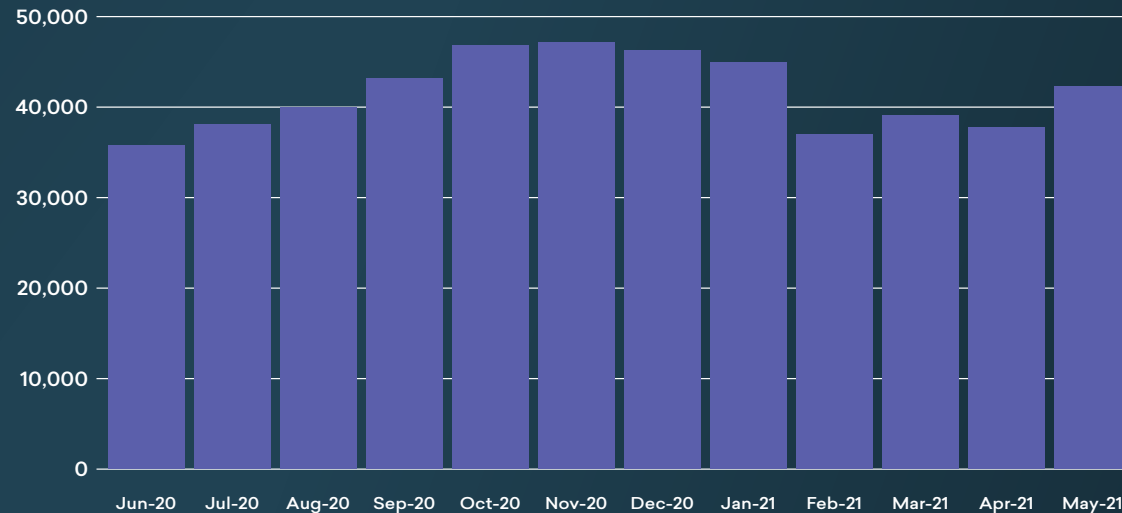

We have identified 366 “green” job titles, on account of their being connected to things like conservation, environment, energy efficiency, recycling, renewable energy, solar power, sustainability and water/wastewater.

The charts on this PDF use our Job Posting Analytics data to unpick employer demand for these jobs, and the advertised salaries and skills associated with them.

All the data included here is available in our online data tool, *Analyst*. For details, contact us at [info@emsidata.co.uk](mailto:info@emsidata.co.uk).
